Crews on way to investigate gas interruption at Mount Gambier

Epic Energy, which owns and operates the South East Pipeline System (SEPS), is sending personnel from Adelaide to investigate an incident that occurred last night (Wednesday, 9 September) at its Mount Gambier meter station.

Epic Energy personnel will arrive Thursday morning to assist local personnel in determining what transpired to cause the disruption to supply.

The SEPS delivers gas into the APA-operated network supplying gas to the township of Mount Gambier.

Supply to the Kimberley Clark production facility is not affected.

Those affected can contact the APA Group Natural Gas Emergency Hotline on 1800 898 220 for updates.

Further information will be provided on Thursday 10 September.
